

## **A dentist duo with innovation in their blood**

(Varna, 05 March 2020): It is only four weeks until the opening of the new Dentaprim treatment centre on 04 April in Varna. 350 employees in a total of 71 treatment rooms will be able to continue their mission which started in 2006: To provide first-class dentistry and implantology for every patient, regardless of their personal income.

The dentist Dr. Dimo Daskalov and Dr. Konstantin Vorotnikov represent a team of young doctors who have set themselves the goal, using the latest technologies and on the basis of a fully digitised treatment cycle, to enable every patient to get perfect dental treatment. Together, the two dentists have already introduced innovative working methods such as the dual control principle.

In the attached article we present two rock stars of dentistry Dr. Dimo Daskalov and Dr. Konstantin Vorotnikov - two men with whom Dentaprim further consolidated its status as the leading dental clinic in Europe.
